OBJECTIVE

Final-year B.Tech (CSE - AIML) student with hands-on experience in Java, Python, HTML, and CSS, seeking an entry-level Software Developer role. Eager to apply strong problem-solving skills and project experience to build efficient, user-focused software.

EDUCATION

B.Tech in Computer Science & Engineering (AI & ML)

Expected 2028

Ambalika Institute of Management and Technology

TECHNICAL SKILLS

Languages: Java, Python

Web Technologies: HTML, CSS

Profiles: Active on GitHub and LeetCode; personal portfolio website

PROJECTS

Food Ordering Web Application

HTML, CSS, JavaScript

- Designed and developed a responsive food-ordering website allowing users to browse a menu, select items, and place orders through an intuitive interface.
- Implemented dynamic front-end functionality using JavaScript to manage cart items and update the order summary in real time.
- Built a clean, mobile-friendly layout using HTML and CSS focused on usability and visual clarity.

Personal Portfolio Website

HTML, CSS

- Built and deployed a personal portfolio website (hosted on GitHub Pages) showcasing skills, projects, and contact information.

CERTIFICATIONS

- Introduction to Prompt Engineering with GitHub Copilot — December 2025 (Certificate Code: 9637172)

ADDITIONAL INFORMATION

- Actively solving Data Structures & Algorithms problems on LeetCode.
- Maintains all project source code publicly on GitHub.
